World's first varifocal mini dome, the Alliance-mini offers exceptional image quality in a tiny, versatile and attractive package. It is available in interior vandal models from VGA to HD1080p megapixel resolutions, making it one of the smallest professional high-resolution surveillance cameras available today. At only 2.78 inches in height, the Alliance-mini is designed for discreet indoor use, ideal for retail, education, gaming and healthcare environments. These ultra lightweight cameras easily mount to ceilings or walls, and the true 3-axis gimbal, locking shroud and Power-over-Ethernet design saves time and money on installation and maintenance. The Alliance-mini supports streaming audio, allowing two-way communication between the camera and remote/monitoring locations. The Alliance-mini includes black and beige trim rings for convenience. Options include pendant mount and gang box adapter accessory kits, varifocal, wide and telephoto lenses.
