

AluDisc™

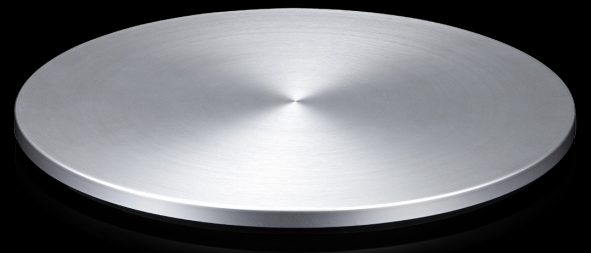

The 360-degree pedestal for iMac

ST-666

Just Mobile AluDisc™ is the deliciously minimalist rotating pedestal for Apple iMac and Thunderbolt Display. Fashioned from a single piece of high-quality aluminium, the AluDisc's platter floats on internal ball bearings - allowing you to effortlessly turn your display through 360 degrees.

Whether you want to show off your screen, instantly reshape your workspace or simply access your USB and Thunderbolt ports without having to move from your seat, AluDisc™ delivers complete desktop flexibility.

Features:

- High-quality aluminium construction
- Hard-wearing ball-bearing mechanism
- Smooth rotation through 360 degrees
- Minimalist design
- Load-balanced for all iMacs and Apple flat-panel displays
