# HOW TO INSTALL LV8H UNDER WINDOWS 7 32 AND 64 BIT:

When inserting CD into your computer please close down the Autorun window and open your CD (Right click from mouse) to display all files and folder.

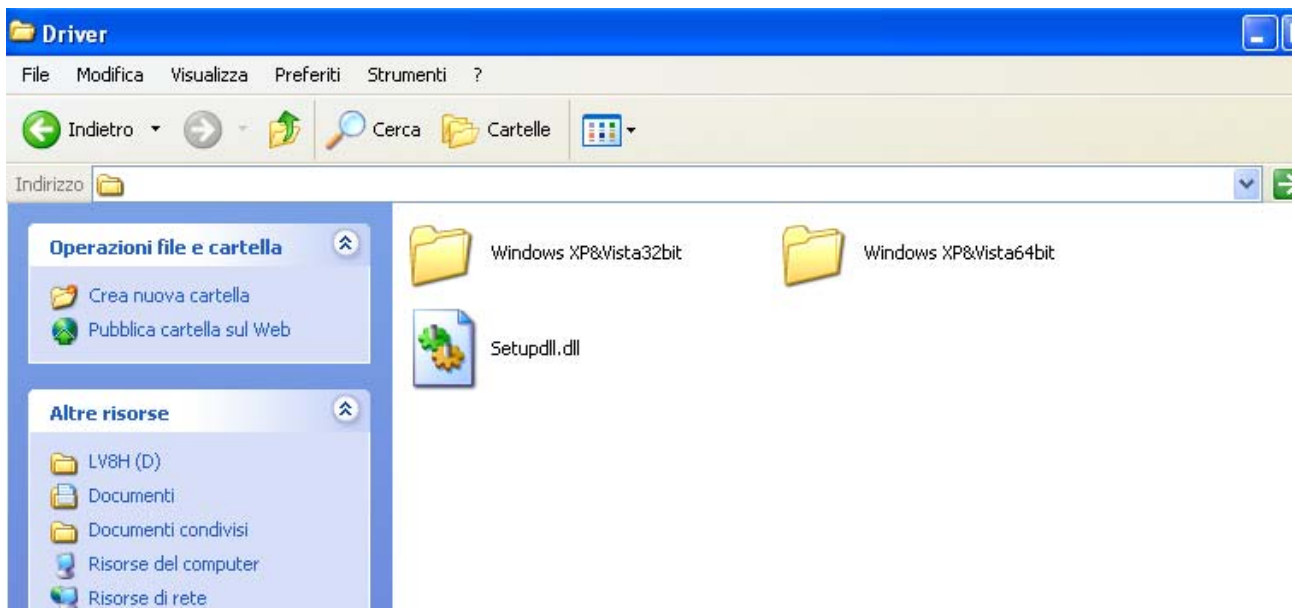

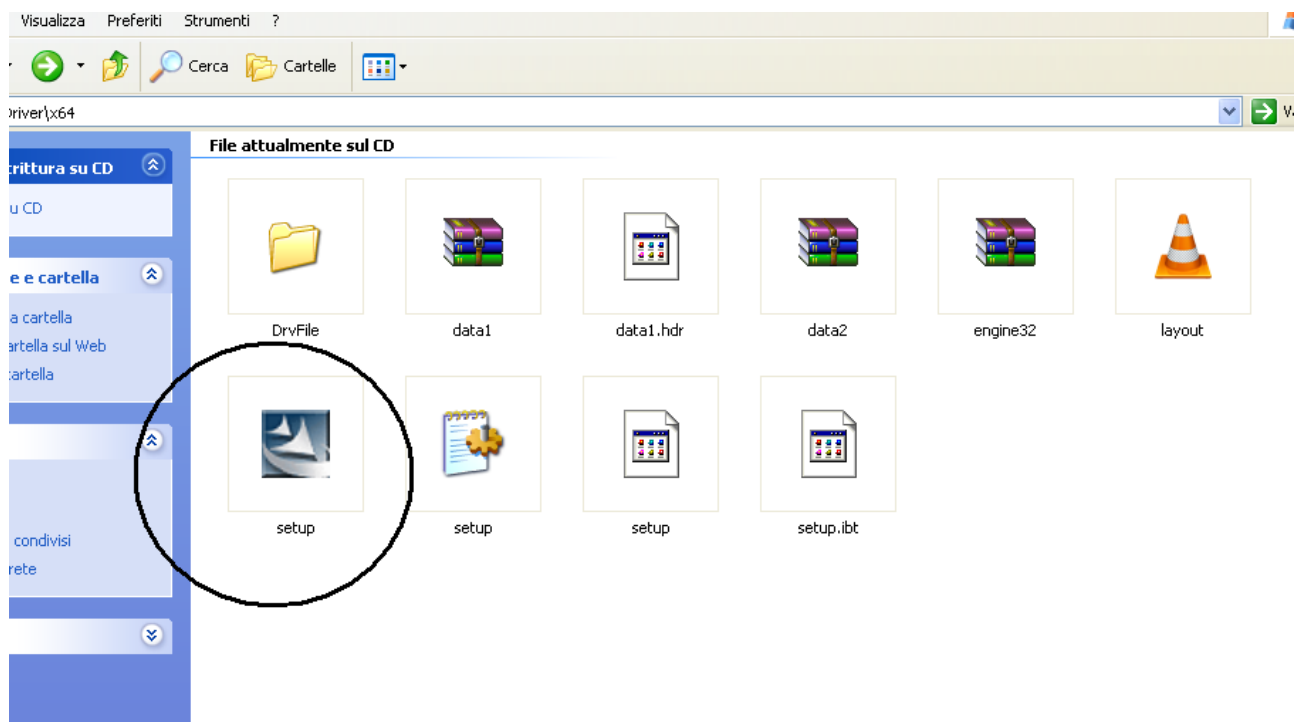

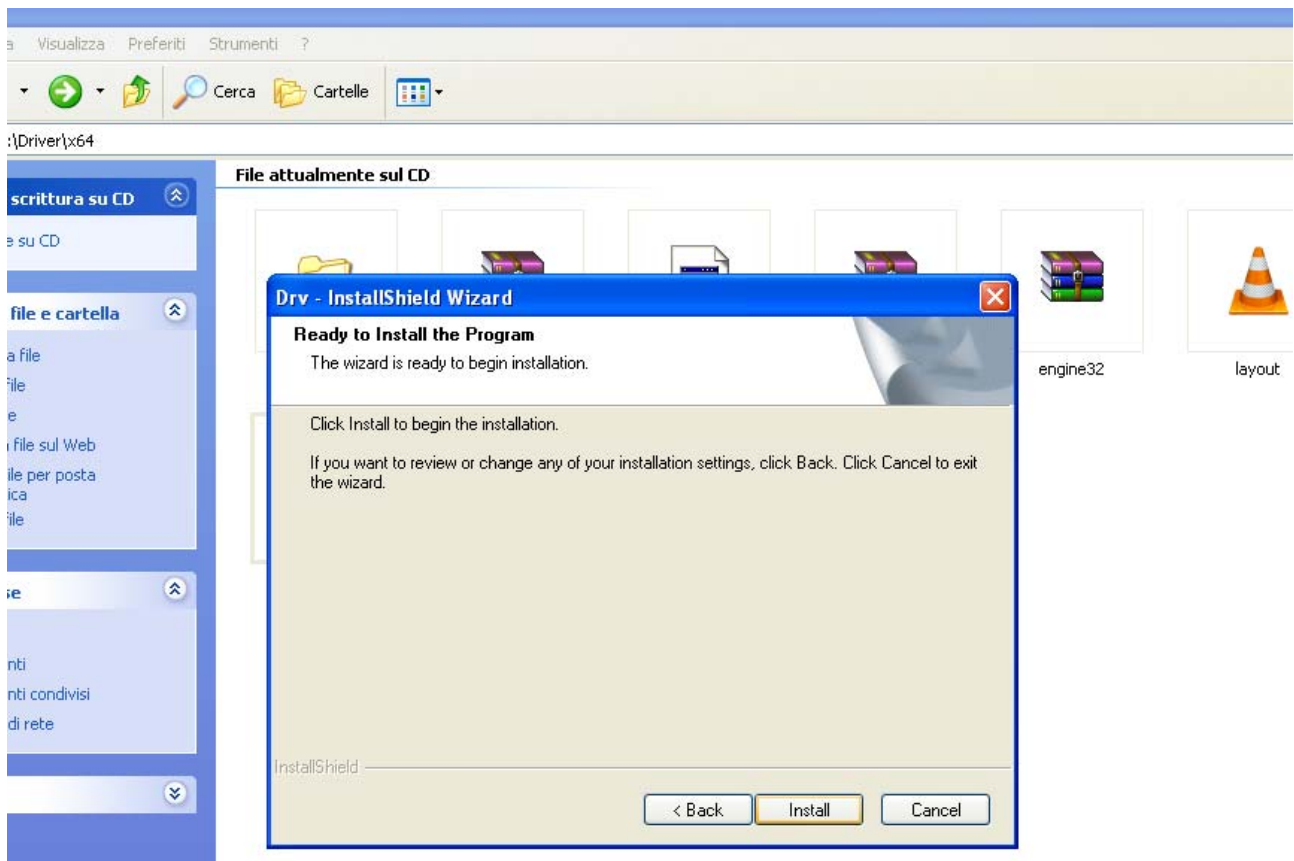

Enter into (D:)

If your Operating System is Windows 7 32bit please open Windows XP&Vista 32bit and install the driver.

If your Operating System is Windows 7 64bit please open Windows XP&Vista 64bit and install the driver.

Choose Setup to run the installation

As soon as the installation process for driver is completed you can reboot your PC and insert again the CD. Now it is time to proceed with the software installation from Autorun.
